Education

I completed high school in 2014 at St Monica's College. Shortly after, I studied a year and a half of Arts, majoring in creative writing. However, concerned about my job prospects for the future, I ultimately chose to switch to a Commerce degree. I graduated in 2020 with a Bachelor of Commerce (Finance and Accounting) in 2020. Currently, I'm a student studying IT and Coder Academy.

Work

Most recently, my partner and I bought a Fresh Seafood/Fish and Chips shop in Sunbury which we operated for 2 years. It was a decision made to challenge ourselves and throughout the experience we learnt a great deal on how to operate a small business. This allowed us to improve our communication skills, our ability to manage finances, manage staff and work under pressure. It was a rough experience but at the same time an experience I'm grateful for as it really accelerated my personal growth and development. About Page

A LITTLE BIT ABOUT me

Background

Hello! My name is Michelle and I was born and raised in Melbourne. My parents immigrated from China a few years before I was born, looking for a better life. Here, they opened a Charcoal Chicken Shop and Noodle Bar which they still run to this day! I also have two little sisters (one pictured with me on the right). After graduating university, I met my wonderful fiancé and we decided to try running our own business. We chose a Fish and chip shop in Sunbury and moved there to start a new chapter. We recently sold our shop after two long years and I'm now looking towards a career in IT!

Hobbies/Interests

I used to spend an unhealthy amount of time on my computer playing games (hence the interest in computers and IT!) but outside my addiction, I love going for hikes in the mountains and walks along beaches. I am also a coffee addict and love looking for new cafes to explore. I am more of a homebody and with my spare time I make cakes! Have a look at my blog [here](#) to see my latest creations 🍰.
